Pacific Bell Telephone Company (dba AT&T California)
WDID NO.: 2000U000035**

Dear Ms. Mustain:

Shaw Environmental, Inc. (Shaw), on behalf of Pacific Bell Telephone Company (dba AT&T California), has prepared the attached renewal application for the *General NPDES Permit for Discharges from Utility Vaults and Underground Structures to Surface Waters* (NPDES No. CAG990002 and Order No. 2006-0008-DWQ) for your review.

A completed Notice of Intent (NOI) is included in Attachment 1. Six manhole sampling locations within Concord (Region 2) are summarized in Table 1 and delineated in Figures 2.1 to 2.8. Five of these six manholes are to be sampled yearly in accordance with the required Monitoring and Reporting Program. The sixth manhole is listed as an alternate, in case one of the manholes is dry. The manhole water is sampled to ensure that water pumped out of the manholes do not exceed discharge water limitations. A copy of the Pollution Prevention Plan is included in Attachment 2.
